Summary

Results-driven Full-Stack Developer proficient in React.js, Node.js, and modern JavaScript. Passionate about building scalable, user-friendly applications. Strong problem-solving skills with hands-on experience in full-cycle development, performance optimization, and seamless frontend-backend integration. Continuously learning and adapting to emerging technologies.

Technical Skills

Programming Languages: JavaScript, TypeScript, Java, HTML, CSS/SCSS
Frontend: React.js, Redux, RTK Query, Tailwind CSS, Responsive Design
Backend: Node.js, Express.js, MongoDB, PostgreSQL, REST APIs, JWT, MVC Architecture
Tools & Platforms: Git, Jest, Netlify, Firebase, Google Cloud Platform (GCP), Supabase
Design & Prototyping: Figma, Photoshop

Experience

Full Stack Developer Intern   Nov 2024 – Apr 2025
XSCAPE ENTERPRISE LLP   Remote (Trichy HQ)

• Built and improved features for modern web apps using React.js and Supabase.
• Utilized tools like Microsoft Planner, Teams, Office Suite, Figma, ChatGPT, and Perplexity to streamline collaboration.
• Applied Agile methodologies for sprint-based deliveries of scalable components.
• Led UI/UX improvements based on usability testing and user feedback.

React Developer Intern   March 2024 – June 2024
BRQGlob   *Kasaragod,Kerala*

• Delivered 5+ features for an ERP Admin Dashboard, enhancing workflows and reducing navigation time.
• Refactored key modules to improve performance and maintainability by 20%.
• Worked closely with backend and design teams to implement scalable product features.
• Participated in code reviews to maintain best practices and ensure clean code standards.

Projects

AI-Powered Image Editor | Next.js, Convex, AI, ImageKit,FabricJS   GitHub | Live

• Engineered a collaborative image editor using Next.js and FabricJS with real-time design tools.
• Integrated AI features for auto-enhancement and style transfer.
• Used ImageKit for cloud-based media management, boosting load speeds by 35%.
• Scalable architecture using Convex + serverless functions for low-latency updates.

Toolbear: Full-Stack E-commerce Platform | MERNStack,TailwindCSS,GCP   GitHub | Live

• Designed a mobile-friendly UI and implemented real-time filtering.
• Developed secure authentication, order flow, and payment integration.
• Built an admin dashboard with sales analytics, order management, and inventory tracking.
• Deployed on GoogleCloudPlatform(GCP) using Nginx and Git for secure and scalable hosting

AI Cover Letter Generator | Next.js, TypeScript, Node.js, HuggingFace, Tailwind   GitHub | Live

• Built an AI-powered cover letter generator using HuggingFace's text generation models.
• Integrated user resume input and dynamic prompt injection for personalized cover letters.
• Developed a clean UI with Tailwind CSS and responsive form-based inputs
• Deployed on Vercel with HuggingFace API integration for real-time generation.

Kunji.link: URL Shortener | Node.js,Express,TailwindCSS   GitHub | Live

• Built a secure URL shortening platform with user authentication and rate limiting.
• Designed a responsive UI with TailwindCSS and integrated RESTful APIs using Node.js and Express..

Education

Government Polytechnic College, Thottada   Kannur, Kerala
Diploma in Textile Technology   2015 – 2018

Chovva Higher Secondary School   Kannur, Kerala
Plus Two (Biology Science)   2013 – 2015
